Weekly Team Meeting 03/26

26 MAR 2020 / 3:00 PM / ZOOM 257000043

ATTENDEES

Dr. Ay, Dr.Li, Xueren Wang, Wei Hu, Zhicai Li, Yanqin Huang, Yuhang Dai

AGENDA

- Discussing project plan of the remaining semester.

NOTES

- Wei and Zhicai show what new things have been done so far.
 - Before lab closing, Wei has been taken out the basic project components for test, and he found where need to be improved. And Zhicai presented the algorithm and corresponding codes between HUB and NODE.
- Discussing project plan of the remaining semester.
 - Due to COVID-19, we can not have normal meeting and do test in lab as before, but it is replaced by online meeting. There would be difficult for us to continue our following test like components performance, code test and distance test.
 - Here are our mentor's suggestions:
 - Continue finish circuit building and code testing to make sure it does work, which can be shown to others.

- Make sure write down and submit appropriate the logbook and portfolio (scanned digital version is doable)

ACTION ITEMS

- Improving circuit performance.
- Testing the hub and node code with microcontroller.
- Get our box designing well.
